Information on insurance

Mobility with Erasmus+ does not automatically include insurance cover!

The minimum requirements of Erasmus+ for adequate insurance cover abroad include health and accident insurance as well as liability insurance. As a participant, you are responsible for your own insurance cover.

Health insurance in other European countries: With the European Health Insurance Card (EHIC) on the back of your e-card, you can prove the existence of statutory health insurance

in Austria in other European countries. With the European Health Insurance Card you will receive basic medical care in the event of illness in the countries of the European Union and the EEA states.

Accident and liability insurance: By paying the ÖH contribution, you are covered by accident and liability insurance for the entire semester. **You are also insured for all accidents and damages that occur during your studies or internship or on the way there.**

Recommendation: The International Office strongly recommends that you take out additional health/travel, accident and liability insurance to cover your leisure activities.

Language skills

Erasmus+ offers online language support to expand and improve your language skills. A placement test can be taken voluntarily to determine your current language competence level. The OLS platform is available at [EU Academy \(europa.eu\)](https://euacademy.europa.eu/) An EU login must be created in order to use the platform. The OLS platform can be used in preparation for the mobility and after the mobility.

Please indicate below which language competence level you have in the working language used at the host institution.

☐ I will travel using **sustainable means of transport** as defined by the Erasmus+ programme.

* Green travel refers to travel that uses low emissions means of transport for the main part of the journey, such as bus, train, or carpooling (shared car with multiple passengers), or other sustainable modes. To receive the green travel funding, more than half of the total distance of the journey to and from the host destination must be completed using such sustainable transport methods.

For details on **the ERASMUS+ one-time travel grant**, please refer to the amounts in the Calls for Application on our website:

Signature

I hereby confirm that the information I have provided for my Erasmus+ funding application is correct. I acknowledge that misleading or false information may lead to the cancellation of funding.

I confirm that I am not allowed to commute between my registered place of residence and the host organisation/host country during my mobility period. In particular, students whose internship destination is on the border to Salzburg are not permitted to commute daily. Doing so will result in the cancellation and repayment of the grant.

I also confirm that I will inform the International Office immediately of any changes to my mobility. Failure to do so may lead to a withdrawal or retroactive reduction and repayment of the grant.

I have carefully read the information on insurance and the privacy policy.
